

To our fellow State System students:

As presidents of your Student Government Associations, we are glad to be back on campus, where we can attend classes in person and enjoy college life.

But it will take all of us, working together, to stop the spread of COVID-19 and keep our campuses open, especially now that the delta variant is so widespread.

Please remember to wear a mask whenever you are indoors – and remind your friends and classmates to mask up, too. This is one simple step we all can take to prevent outbreaks on campus.

We also encourage every student to consider vaccination. It's the best way to protect yourself and your classmates, including the most vulnerable members of our campus community. Vaccination is safe and effective, and it's available free at local pharmacies and healthcare providers.

Thank you for standing with us to create safer campuses in our Pennsylvania State System of Higher Education.

Sincerely yours,
